# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

## INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of the Staunton City Directory, present to subscribers and the general public, this, the 1931 edition of the Staunton Directory, which also includes the taxpayers of Augusta County.

Confidence in the growth of Staunton's industry, population and wealth, and in the advancement of its civic and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Staunton to the world.

The enviable position occupied by HILL'S directories in the estimation of the public, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Staunton Directory will fulfill its mission as a source of authentic information pertaining to the city and county.

### Five Major Departments

The several essential departments are arranged in the following order:—

THE BUYERS' GUIDE, pages 17 to 48, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Staunton. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and, as such, merits a survey by all buyers eager to familiarize themselves with sources of supply. The city's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like Staunton, the necessity of having this kind of information immediately available, is very great, and frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations is included in pages 49 to 248. A feature of this section is the inclusion of the wife's name in parentheses following that of the husband.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 249 to 304. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 305 to 362. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE AUGUSTA COUNTY TAXPAYERS' DIRECTORY extends from page 363 to page 415.

#### Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Staunton and Augusta County, for business men, everywhere, realize that the city directory represents a community as it really is.

#### The Staunton Directory Library

Through the courtesy of the publishers of the Staunton City Directory, a Directory Library is maintained in the offices of the Staunton Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the United States and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY CO., Inc.,  
Publishers.

#### Statistical Review

Form of Government—Commission-manager.  
Population—11,990 (1930 U. S. Census for city proper).  
Native-born, 98.6%.  
Area—2.81 square miles.  
Altitude—1,400 feet.  
Climate—Mean annual temperature, 53 degrees F.; average annual rainfall, 42.5 inches.  
Parks—2, with total of 160 acres, valued at \$134,000.  
Assessed Valuation—\$8,300,000.  
City's Bonded Debt—\$1,516,000.  
Financial—6 banks, with total deposits of \$6,119,000; resources of \$8,591,000, and clearings of \$20,000,000 annually.  
Post-office Receipts—\$89,308.03 (1930).  
Telephones in Service—2,612.  
Churches—19, leading denominations.  
Building and Construction—Value of building permits, \$299,926.50, with 68 new dwelling units constructed (1930).  
Real Estate—2,470 homes, with about 62% owned by occupants.  
Industry—31 establishments, employing 1,200 workers, paying wages of \$905,000 annually, and having products valued at \$3,000,000 annually. Principal products: Furniture, men's garments, flour and dairy products.  
Trade—Retail area has radius of 25 miles, and population of 130,000; wholesale area, radius of 40 miles, and population of 200,000.  
Newspapers—2 dailies.  
Hotels—4 principal. Newest hotel built in 1925.  
Railroads—2: Chesapeake & Ohio and Baltimore & Ohio.  
Amusements—2 theatres, with total seating capacity of 2,400 persons.  
Hospitals—1, with 73 beds.  
Education—12 schools, including 1 parochial. Several widely-known private schools. Number of pupils in public schools, 1,925. Value of school property, public and private, approximately \$2,563,000.  
City Statistics—Total street mileage, 38, with 31 miles paved and 2 miles under construction. Miles of gas mains, 20, and of sewers, 15. Daily average pump of water works (municipal), 2,500,000 gallons, with 35 miles of mains, and plant valued at \$1,200,000. Fire department employs 21 men, with 3 engines and 1 hose and chemical wagon, in 1 station house. Value of fire department with property, \$100,000. Police department has 14 men, with 1 station.

### Location

For the past decade the eyes of the nation have been fixed upon the great Shenandoah Valley of Virginia with ever-increasing interest. Beauty of scenery, historic background, and natural wonders have drawn their tens of thousands of visitors with the passing years, but the vast wilderness tracts of the Shenandoah National Forest Reservation in the Western Alleghenies and the primeval beauties of the proposed Shenandoah National Park in the Blue Ridge will draw their hundreds of thousands in the years to come.

Staunton, the county seat of Augusta County, situated among the fountains of the Shenandoah River, at the intersection of the Midland Trail and Lee Highway, and of the Chesapeake & Ohio and Baltimore & Ohio Railways, with hard-surfaced roads and rail connections to the cardinal points of the compass, and lying midway between the great Federal park and forest projects, is easily the most important city within a radius of nearly a hundred miles of territory, contrasting the alluvial richness and productivity of its meadows and river bottoms with the rugged beauty of its mountain scenery.

As a little settlement on the outskirts of civilization, Staunton early attracted attention and attained importance far in excess of its size and population. Occupying a strategic position in relation to the larger cities of the East, bearing a proud history, identifying it with the records of the entire nation, endowed by nature with a delightful climate and unsurpassed mountain and valley scenery, with half a dozen of the greatest natural wonders of the world near its doors, it follows as a matter of course that Staunton should make its strongest appeal as a residential and educational center. Yet there is here an industrial stability, a financial strength and soundness that offer ever-increasing opportunity to those who seek the paths of commerce or the marts of trade, while the broad acres of Augusta are ever beckoning to the agriculturist, the fruit-grower, and the stock-raiser.

Highly individualistic, esteemed for its hospitality in a notably hospitable state, Staunton presents both a friendly and a cultured atmosphere to the visitor; and the home-seeker, desiring a place to dwell in peace and comfort, to raise and educate his family, soon falls under its magic spell and remains to be numbered for the rest of his life as an adopted son.

### Population

Staunton, with its suburbs, has a population of about 15,000, while Augusta County, of which Staunton is the county seat, has nearly 40,000 more. Nearly 99 per cent of this population is native-born American stock. Illiteracy is at a low ebb and the problem of the unemployed is almost unknown here, most of the unskilled labor, as well as the skilled, being absorbed in the factories and industries of the community.

### History

Augusta County is one of the largest and most productive counties in Virginia. Prior to 1784, when Virginia ceded the Northwest Territory from which later came the states of Ohio, Indiana, Illinois, Wisconsin and Michigan, Staunton was the seat of government of this vast empire, which, according to the wording of the Virginia-London Company's grant in 1609, reached from the Atlantic Ocean "west and southwest to the South Sea," as the Pacific Ocean was then believed to be.

Founded by John Lewis and John Mackey, Staunton was named in honor of Lady Staunton, wife of Governor Gooch, and was chartered in 1749. The extent of the domain over which she reigned in early Colonial days may be realized from the fact that court was on one occasion adjourned at Staunton to meet at Fort Duquesne, or what is now the city of Pittsburgh, Pa. Early court records, the deed to the Northwest Territory signed by the chiefs of the "Five Nations of the North," and other important documents may be seen at the county clerk's office.

In 1781, when Colonel Tarleton, raiding toward Charlottesville, drove the Virginia Legislature across the Blue Ridge, they found a safe refuge in Staunton, holding their sessions for a time in old Trinity Episcopal Church, thus making Staunton the temporary capital of Virginia.

Next to Richmond, Staunton during the Civil War was the chief base of supplies for the Army of Northern Virginia, and for Jackson's famous Valley Campaign. It was twice occupied by Federal troops, but not until the latter part of the war. Near Staunton were invented the reaper and the sewing machine, and here Woodrow Wilson was born.

"The Staunton Plan," of city-manager form of municipal government, first saw the light of day in Staunton in 1908, and spread rapidly over the country.

### Religion

Here religious toleration found an early haven and has since endured. Religious zeal and the right to worship God according to one's own conscience were determining factors in the upbuilding of the community. While a number of creeds were represented by the early settlers, they adjusted their differences amid the common dangers of the wilderness and lived together in brotherly love and harmony. Seventeen handsome and flourishing Protestant churches now exist in Staunton—five Methodist, three Presbyterian, two Episcopal, four Baptist, one Lutheran, one United Brethren, and one Brethren, all united in the Staunton Ministerial Association, and there is also a Catholic church and a Jewish synagogue.

### Education

Staunton is best known throughout America and abroad for its schools. City and county together have nine private educational institutions, one college for young women, and one State school. So high are the standards of all these schools that they have contributed largely in making the

Shenandoah Valley nationally famous as an educational center.

The most widely-known schools are the three military prep schools for boys, two prep schools for girls, one college for young ladies, and two business colleges. The public schools in both city and county are among the finest in the South. There are five private schools of music.

#### Industry

While Staunton has many prosperous industries, such as overall, men's wear, pennant and furniture factories, ice plants, cold storage plants, flour mills, iron foundry, machine shops, several of the largest garages in the state, ice cream plants, a fertilizer factory, horse and cattle markets, a brick plant, and limestone and lime-grinding plants, with talc and manganese mines nearby, its industrial development is just beginning to gain speed. Excellent opportunities are offered for lumber mills, textile plants, canneries, apple by-product plants, and factories for farm implements, automobile accessories and the like.

#### Agriculture

Staunton offers an excellent market and shipping point for grain, fruits, vegetables and other products of farms and gardens for miles around. Augusta and adjoining counties are primarily in the bluegrass limestone section. Augusta alone has 3,759 farms with an average of 110 acres each, the total valuation of which is approximately \$50,000,000. The wheat crop averages \$1,500,000; corn, \$2,225,000; and hay, \$1,500,000 annually. A considerable amount of sawed timber, railroad ties and telegraph and telephone poles is shipped annually.

#### Stock-Raising

Augusta is the leading county in the state in beef cattle and horses and in live stock generally. It is first in wheat and hay, second in poultry, which is a fast-growing industry, and third in dairying, which is also making rapid strides. It has some of the finest herds of pure-bred live stock in the East, and offers great opportunities to those interested in any or all branches of stock-raising.

#### Fruit-Growing

Augusta County's apple industry is second only to Frederick County, in Virginia, and is rapidly increasing. There are approximately 15,000 acres in orchards, valued at over \$5,000,000. The average annual crop value, including peaches, pears, and small fruits and berries, is over \$1,500,000.

#### Merchandising

Staunton is the hub of a trading radius of some forty miles, with a trading population of nearly 200,000. The spacious and thoroughly modern stores of every kind, wholesale and retail, are noted throughout the state. In addition to the general business, there is always a brisk trade in farm supplies.

## THE PEOPLES DIME SAVINGS BANK

"FRIEND BANK BOOK"

Gives a person the feeling that he will never need to become dependent; can look forward to advancing years with no fear as to how he will live—in short, it bolsters up a man's self-respect and eliminates one's cause for worry.

Have you one of these books? If not, get one at THE PEOPLES DIME SAVINGS BANK and "Make that Dollar Grow."

Secretarial Bookkeeping	Auditing

Every young man or young woman who expects to enter the business field should have a business education. A college or professional course alone is insufficient for business success. Business training costs but little in money or time, yet makes the possessor independent and self-supporting.

## The Sign over your door

tells the passer-by that you are there ready to serve him.

But you also want to tell people, in all parts of the community, where you are and what you do.

This sign is only seen, however, by the small portion of the population who pass your way. Being fixed, it cannot reach out and tell somebody, a good prospect, on the other side of town about your business.

But  
**Your Directory  
Advertising**  
is before the  
entire community

It directs buyers from all parts of the community to your business and to any particular service which they may require.

The advertisers stand out as the leading and permanently progressive firms of the community.

You should make it easy for people to find you by putting in the directory such information as a buyer wants to know.

For FREE suggestions on how to make your advertising most effective write—

STAUNTON DIRECTORY OF HOUSEHOLDERS (1931)

249.

## HILL'S STAUNTON

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1931

Copyright, 1931, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

\*\*\*Between two intersecting streets designate there are no houses between them.

## Power of Advertising

The City Directory is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase.

If your business is not classified properly and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

**Advertising** is the foundation upon which successful businesses are built. You must apply this to your own particular business.

**Advertising** is the power of an idea multiplied.

# CITY DIRECTORY USES

## 1. SALES PROMOTION:

### a. Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

### b. Leads—

Determining proper official to approach for sales interview. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

### c. Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

### d. Building mailing lists and direct mail campaigns—

1. List of local people (Neighborhood List) within a given radius of Business location. On a city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.
2. Lists of business houses and the professions—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.
3. Vocational Lists—Such as clerks, stenographers, telephone operators, carpenters, salesmen, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city. Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

## 2. CREDIT:

### a. Verifying customer's statements and information.

### b. Information about customer.

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

### c. Determining character and stability of applicant for credit.

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

# FOR EVERY BUSINESS

### d. Identifying applicant and applicant's references.

The alphabetical directory gives complete information for each individual. (See Information about customer). The references given by the applicant for credit, can be identified in the same manner—who they are, what position they hold, etc.

### e. Collecting accounts.

Tracing and locating debtor. Locating other members of debtor's family or relatives.

## 3. DELIVERY AND SHIPPING:

### a. Routing—laying out route for delivery.

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

### b. Obtaining correct addresses.

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

### c. Locating streets, buildings, un-numbered houses.

A full description of every street—with location is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the buildings along the streets.

## 4. PURCHASING:

The complete classified business section in the back of this directory, makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official of firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (\*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

## 5. GENERAL INFORMATION:

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing officers, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.
